

PAMP Suisse Gold Bar New Design

1 Oz. Gold Bullion Bar in Assay

Secure Investment

PAMP Suisse is a world-leading precious metals refiner that produces exceptional gold bars such as the New Design gold bar in Assay. The bar is 1 ounce of 24-karat gold, newly and beautifully designed in elegant PAMP Suisse style.

The obverse of the 1 oz. PAMP Suisse New Design gold bar shows the word "Suisse" repeated in a diagonal pattern. The reverse features the PAMP Suisse logo, the weight of 1 ounce fine gold, the purity of 999.9, and a unique serial number for each bar.

GMRgold offers these attractive gold bars In Assay, meaning they have been individually and scientifically analyzed to ensure that they contain the exact metal content and purity described by the refiner. They are then sealed into a tamper-evident package. They come complete with an assay card that guarantees the weight of 31.1 grams and the fineness of .9999, along with a certificate number and the signature of the assayer.

Another 1 oz. gold bar option is the PAMP Suisse Lady Fortuna in Assay in a Veriscan Package. Lady Fortuna is a Roman goddess of beauty, luck and prosperity. The image on the obverse shows Fortuna holding a cornucopia, symbolizing a time of plenty. The reverse shows the PAMP Suisse logo, the weight of 1 oz. fine gold, .9999 purity, and a unique serial number for that individual bar.

Both the New Design and the Lady Fortuna gold bars are fine examples of the PAMP Suisse commitment to quality, beauty and authenticity. No matter which you choose, you are building your fortune in one of the most secure ways possible.

1 Oz. Gold Bar - PAMP Suisse

Many new gold investors wonder how they can be sure of the precious metal they are getting when they buy a gold bar. The PAMP Suisse Assay card tells it all. Owning a gold bar in Assay from PAMP Suisse means you never have to wonder if it is really pure gold.

The Veriscan packaging has an assay card like the New Design gold bar in Assay, but it takes security to another level. PAMP Suisse's own Veriscan technology creates an image of bar's surface at a microscopic level and adds it to the Veriscan database. Then, the bar can be authenticated at any time by scanning and comparing to the database.

PAMP Suisse has one of the best names among producers of gold bars. With the 1 oz. New Design in Assay and the Lady Fortuna in Assay Veriscan Packaging, PAMP Suisse's reputation and your investment are safe.
