

SILVER AMERICAN EAGLES

BULLION, PROOF & UNCIRCULATED

THE SILVER AMERICAN EAGLE PROGRAM

Noted as one of the most popular silver bullion products sold today, American Eagle Silver Coins have been produced and sold in both proof and bullion finishes since 1986. They have always featured a rendition of sculptor Adolph A. Weinman's magnificent Walking Liberty design, originally prepared and executed for the Nation's first circulating half-dollar coin in 1916.

THERE ARE 2 TYPES OF AMERICAN EAGLES:

AMERICAN EAGLE BULLION COINS FOR INVESTORS

Congressionally authorized American Eagle Bullion Coins provide investors with a convenient and cost-effective way to add a small amount of physical platinum, gold, or silver to their investment portfolios. Since their launch in 1986, gold, platinum and silver American Eagles have become leading bullion coin investment products.

AMERICAN EAGLE PROOF & UNCIRCULATED COINS FOR COLLECTORS

The United States Mint produces proof versions of American Eagle Bullion coins for collectors. Since American Eagle Proof Coins are produced by the United States Mint, each coin's content, weight and purity are guaranteed by the United States Government. American Eagle Gold, Silver, and Platinum Proof Coins have a limited mintage and can be purchased directly from the United States Mint.

The reverse shows a heraldic Eagle with shield and was designed by United States Mint sculptor/engraver John Mercanti. Both of these design have remained unchanged on the Eagle since the coins introduction in 1986, except for the date on the obverse.

THERE ARE MANY REASONS WHY THIS SILVER BULLION COIN IS POPULAR:

- The American Silver Eagle 1 oz contains exactly one ounce of pure silver so pricing is easy.
- Because weight and purity are guaranteed by the US Government this is a popular choice for Individual Retirement Accounts.
- Because the American Silver Eagle 1 oz is \$1.00 Legal Tender they appeal to investors who want barter money in case paper currency is questioned.
- The American Silver Eagle 1 oz is strikingly beautiful and a tribute to the brilliant uncirculated quality produced by the US Mint.

THERE ARE MANY REASONS WHY THIS SILVER PROOF COIN IS POPULAR:

Unlike commemorative or numismatic coins valued by limited mintage, rarity, condition and age, bullion coins are purchased by investors seeking a simple and tangible means to own and invest in the gold, silver, and platinum markets.” Each of these coins are produced at the US Mint’s facility in West Point and minted to proof quality which the Mint describes as:

“a specialized minting process, which begins by manually feeding burnished coin blanks into presses fitted with special dies. The coin is struck multiple times so the softly frosted, yet detailed images seem to float above a mirror-like field.”

THERE ARE MANY REASONS WHY THIS SILVER UNCIRCULATED COIN IS POPULAR:

The Mint indicates that the Uncirculated Eagles “are similar in appearance to American Eagle Bullion Coins.” However, “these new uncirculated coins are distinguished by the presence of a mint mark, indicating their production facility, and by the use of burnished coin blanks, which are hand-fed into specially-adapted coining presses one at a time.” The mint mark previously noted is a ‘W’ indicating the coins are struck at the Mint’s facility in West Point.
